

The Polyolefin Company (Singapore) Pte. Ltd.

The Polyolefin Company's commitment to Health, Safety, Environment and Quality

Our goal is to protect the health, safety and the environment of our employees, contractors, customers and the communities in which we operate.

We realize this through integrating the health, safety, environmental and quality (HSEQ) management best practices into all aspects of our business activities and upholding the Responsible Care guiding principles of sustainable development in conserving our resources including energy, water and raw materials.

With that, we offer value-added, high-quality, reliable and environmentally sustainable solutions to meet our customers' satisfaction, seeking to improve product offerings through a continued focus on research and development, while protecting our people, the community, and our environment.

We will:

- Meet or exceed all applicable environmental, energy, health and safety requirements.
- Evaluate ongoing Health Safety & Environment, energy management and quality performance through periodic reviews for continual improvement.
- Ensure adoption of environmental, health, safety and quality policies by all our employees, contractors, external providers and stakeholders.
- Operate our facilities to ensure safe and stable operation, with the well-being of our employees in mind, preventing injury and ill-health to people and minimise the impact to the environment.
- Purchase energy-efficient products and services, and design for energy performance improvement.
- Implement appropriate chemical handling and waste management systems with a view to continual improvement, protection of the environment and commitment to requirement specific to the context of TPC
- Subscribe to the HSEQ management system in accordance to ISO 9001, ISO 14001, OHSAS 18001, SS 506 Part 3 and the Responsible Care Initiatives in Singapore.
