

The Polyolefin Company (Singapore) Pte Ltd

Health, Safety, Security, Environment, Energy and Quality (HSSEEQ) MANAGEMENT POLICY

OUR MISSION

We aim to protect the Health and Safety of our employees, contractors, and the communities in which we operate, to maintain a secure workplace, and to conduct our business in an environmentally friendly and sustainable manner.

We aspire to be the region's leading Polyolefin manufacturer, supplying high-quality value added, reliable and environmentally sustainable products through a continued focus on research and development, and to provide services and solutions that not only meet our customers' expectation but also conform to statutory requirements.

With the full support and commitment of our management and employees, our business shall implement Health, Safety, Security, Environmental, Energy and Quality (HSSEEQ) management best practices and Responsible Care guiding principles of sustainable development into all aspects of our operations.

Tatsuhiko Nagamatsu
Managing Director

Tan Aik Joo
General Manager (Plant)

We will,

Meet or exceed all applicable Health, Safety, Security, Environment, Energy, and Quality requirements.

Subscribe to the HSSEEQ Management system in accordance with ISO9001, ISO14001, ISO45001, SS651 and the SCIC Responsible Care Initiatives in Singapore and ensure adoption of the management systems by our employees, external providers, and stakeholders.

Evaluate and monitor the performance of the ongoing Health, Safety, Security, Environment, Energy & Quality management systems using the PDCA cycle for continuous improvement.

With the full participation of all our management, employees, contractors and stakeholders, work to eliminate health and safety risks to maintain safe and stable operations in accordance with all legal Health and Safety requirements. Our goal is to prevent injury and ill health in the workplace, and to upkeep the well-being of our employees, contractors, stakeholders, and community.

Enhance awareness in our employees, contractors and stakeholders of security and emergency preparedness procedures to protect people, products, property, processes and information as well as to meet requirements stipulated by the authorities.

Continually improve and reduce our impact on the environment and to operate a sustainable business fully compliant to our regulatory and statutory obligations through implementation of appropriate chemical-handling, and waste-management systems.

Implement energy-saving projects and purchase energy-efficient products and services to improve energy performance and reduce consumption.
